Best practice for logging UAT tickets

How to log a ticket

Step 1: In the Jira Service Desk portal (<u>https://equilibrium.atlassian.net/servicedesk/customer/portal/43</u>), use the UAT issue option within the Project tab

equilibrium			Q Requests
	Equilibrium Support / EQU Service Desk. EQU Service Desk Welcome! You can raise a service desk request from the options provided.		4
	Optimisation & Support Issue, Support, Estimate	>	
	Hot Fixes P1 Hot Fix, P2 Hot Fix	>	
	Project UAT, Change Request	>	
	Powered by 🏘 Jira Service Desk		
equilibrium _			Q Requests
	Equilibrium Support / EQU Service Desk EQU Service Desk Welcomel You can raise a service desk request from the options provided.		
	Contact us about Project	~	

Step 2: Enter information into each field and click send.

- Raise this request on behalf of: this will always prefill with the user creating the ticket so leave this as yourself
- **Summary:** this is the title of the ticket. Use a descriptive title example 'Homepage hero banner text overlapping on smaller screens'
- **Description:** at a minimum, be sure to include the following for each ticket:
 - URL of the page you are experiencing the issue (to be added to affected URL field below)
 - Screenshot of the issue (to be added as an attachment below)
 - Short summary of the issue. For anything more complicated, include simple steps of how you encountered the issue (this helps us recreate on our end)
 - The browser/device you were using
- Affected URL: please include the URL of the page you are experiencing the issue
- Attachment: include relevant screenshots of the issue where applicable
- Priority: this will default to Medium. P1 issues to be set as Highest.

Important Note: Only one issue to be raised per ticket

Equilibrium Support / EQU Service Desk

EQU Service Desk

Welcome! You can raise a service desk request from the options provided.
